

# Magic circle technique

Working the magic circle technique for  
The Velvet Acorn designs.

Magic circle instructions:

1. Begin by wrapping the yarn around your hand one time and hold with your thumb and index finger.
2. Insert the hook in the middle of the loop you just created by wrapping it around.
3. Yarn over the hook and pull through the loop, this will give you one loop on the hook.
4. Yarn over and pull through the loop on the hook, you will now have a slip stitch through the magic circle.
5. Insert hook in the magic circle, yarn over (2 loops on the hook), pull through both loops, you will now have a single crochet inside of the magic circle.
